# Introduction

**Sirio Finance** is a non-custodial, permissionless Lending & Borrowing Protocol on Hedera leveraging AI to revolutionize DeFi. The three key goals of Sirio are:

1. **Artificial Intelligence:** Harnesses AI for unique capabilities and boosts TVL within the Hedera ecosystem.
2. **Data-Driven Approach:** Enhances transparency and integrates with DeFi applications via APIs, supported by strategic partnerships.
3. **Interoperability:** Pioneers interoperability on Hedera, bridging tech provider tokens to increase TVLs and visibility.

# Roadmap

First target is Mainnet Launch.

Working to establish partnerships with the projects/tokens listed, to ensure an optimal TVL, and with our Tech Partners, with a multi-chain perspective.

Release of APIs for developers CP attraction.

## MAINNET RELEASE

Q3/Q4 2024

## AI MODEL RELEASE

Q4 2024

## TOKEN RELEASE

Q4 2024/  
Q1 2025

Development (halfway) and Release of AI Model for Liquidation Prevention.

Release of Marketing, Customer Profile Strategies and Technical Update for AI Model as B2B Service

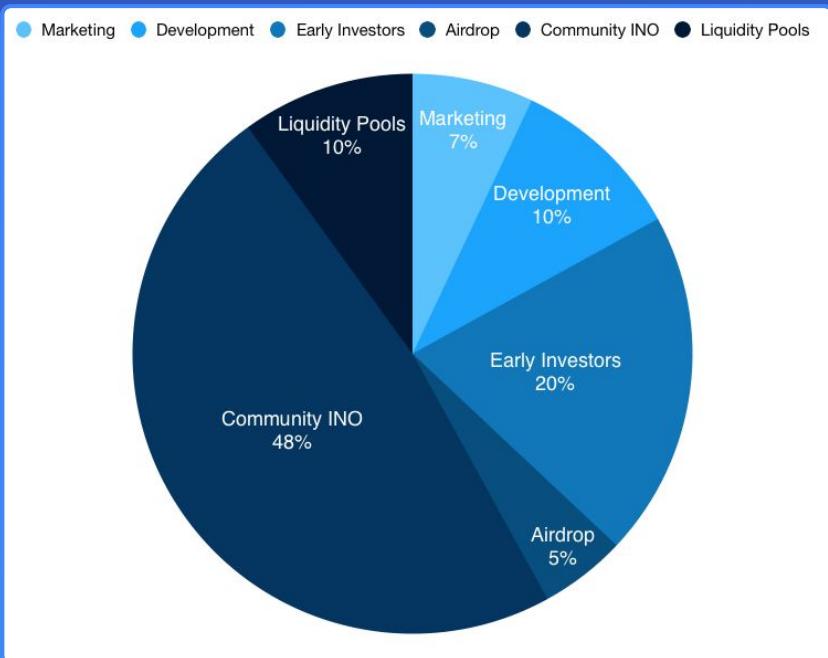

Once maximized the visibility (i/o Hedera Ecosystem) the \$SIRIO Token will be launched.

Multiple Incentives (Fees Discounts, Governance Vote Power Boost, Involvement in initiatives)

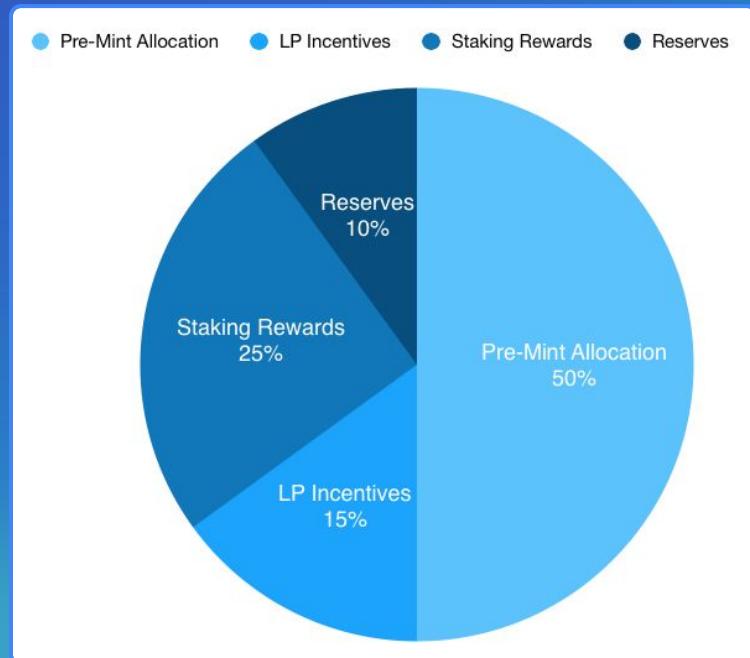

Multiple Sources of incomes

# Tokenomics

Pre-Minted Allocation (50% of MAX Supply)

MAX Supply Allocation

\*Early Investors and Community INO may slightly change based on Early Investor amount raised.

In any case, Community INO Allocation won't be higher than 50-55% while Early Investors allocation won't be lower than 15-20%.

# Tokenomics

**10,000,000**

Max Supply

**5,000,000**

Initial Supply

**\$0.125**

Estimated Token Price

**\$625,000**

Market Cap

**\$1,250,000**

Fully Diluted Market Cap

**\$8,000,000-\$20,000,000**

Range of Fully Diluted Market Cap of our competitors

# Strategic Investment Round

**1 NFT**

Minimum Purchase.  
Each NFT will be sold at  
\$1,000

**10,000**

The Amount of \$SIRIO  
Tokens allocated to each  
NFT, coming with a 20%  
discount from Token  
Launch Price (\$0.125)

**100**

NFTs Available for this  
Investment Round

# Strategic Investment Round

## Procedure

### General Conditions:

- The minimum investment budget is \$1,000.
- No KYC required.
- The sale will last 48 hours, and it will start between 1-15 September
- You can buy any number of NFTs, but at max 10 for each transaction.

### Steps required to join the Strategic Investment Round:

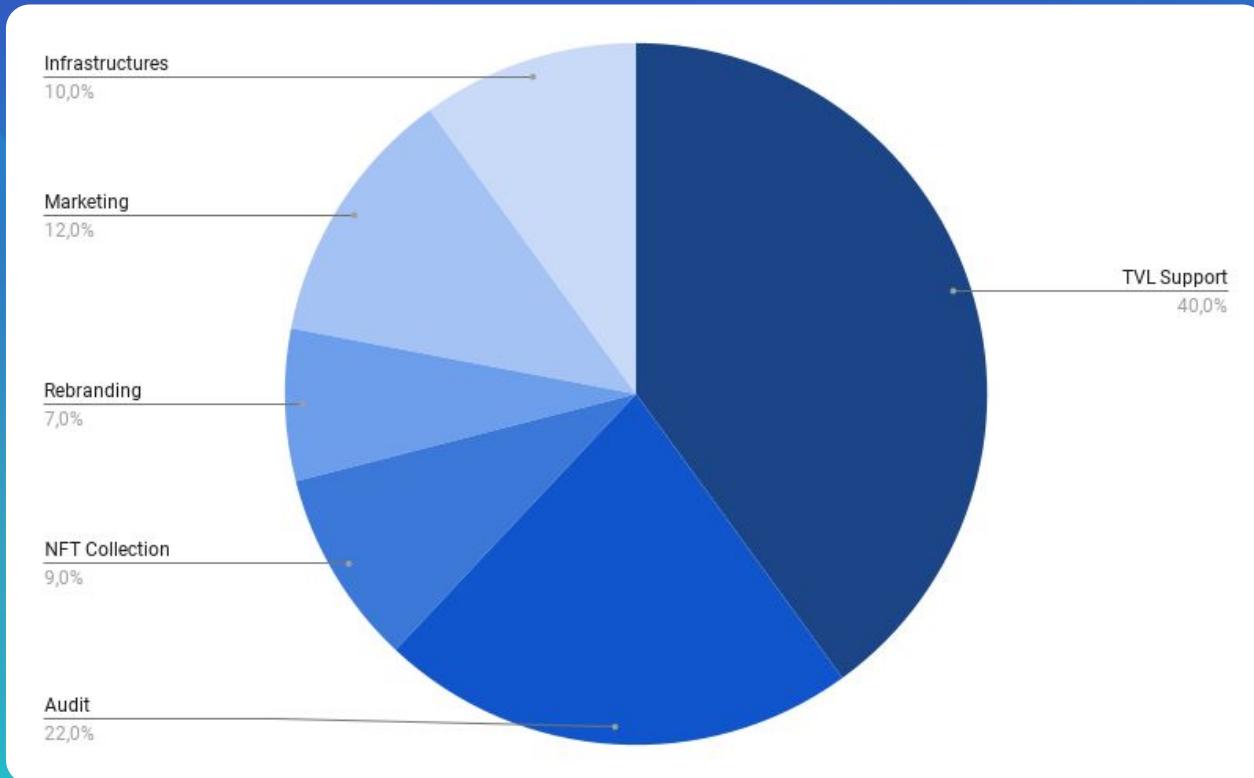

1. Go to Headstarter App – Sirio Investment Round
2. If you are whitelisted and/or HST Token holder you have full priority to enter
3. If you don't own priority, you will have to wait until Private Sale End for priority users, and if there are some NFTs left you can enter the sale
4. Once in, you can buy at max 10 NFT for each transaction. Then you can refresh and buy another 10 units until the Maximum Supply is reached (100).

## Vesting Schedule

1. 30% of Token Purchased directly sent to your wallet on the TGE Date
2. 70% Gradually Released in 180 days after TGE

## Infrastructures

## Tokens & DeFi

\*Upon audit delivery

## Wallets

kåbila

## Oracles

## NFT Marketplaces & Tools

The most important partners, such as Filecoin and ICP, will first be tech providers and help us with the project's visibility. Then, we will work together to bridge their tokens on Hedera and list them among Sirio's markets. The other partners will help us improve the project's visibility using their services, with particular attention to oracles, which will help us reach out to lending protocols interested in using our AI model for liquidation risk management.
